6	Why the tender inquiries were sent to non-accredited vendors when adequate accredited vendors are available for the final closure?	Tendering was done during the training period. All industries enabled and accredited for Fabrication & Testing of TTCP packages are planned to be enabled for final inspection & QC closure. Final closure is an incremental work and parties who are fabricating packages are identified to do final inspection and closure after training.
7	Is the purchase clause applicable to non-accredited vendors submitting quotes like "enclosing consent letter for final closure from accredited vendors" included in the purchase enquiry? If not, why?	No. Since all vendors accredited for package fabrication and testing are getting trained in final inspection and closure, this clause was not included.
